Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the description of the term “Short Term Option Series” within NOM Options 1, Section 1, Definitions, to conform the term to Nasdaq ISE, LLC’s (“ISE”) term of Short Term Option Series which was recently amended.³ The Exchange also proposes to amend certain rule text within NOM Options 4A, Section 12, Terms of Index Options Contracts, related to the Short Term Option Series Program. Finally, the Exchange propose certain other non-substantive amendments. Each change is described below.

Short Term Option Series

Options 1, Section 1(a)(57) describes the term “Short Term Option Series” as follows:

The term “Short Term Option Series” means a series in an option class that is approved for listing and trading on the Exchange in which the series is opened for trading on any Monday, Tuesday, Wednesday, Thursday or Friday that is a business day and that expires on the Monday, Wednesday or Friday of the next business week, or, in the case of a series that is listed on a Friday and expires on a Monday, is listed one business week and one business day prior to that expiration. If a Tuesday, Wednesday, Thursday or Friday is not a business day, the series may be opened (or shall expire) on the first business day immediately prior to that Tuesday, Wednesday, Thursday or Friday, respectively. For a series listed pursuant to this section for Monday expiration, if a Monday is not a business day, the series shall expire on the first business day immediately following that Monday.

ISE’s Options 4 rules were recently amended to expand the Short Term Option Series program to permit the listing and trading of options series with Tuesday and Thursday expirations for options on SPY and QQQ listed pursuant to the Short Term Option Series Program.⁴ In

conjunction with that change, ISE amended its definition of Short Term Option Series, within Options 1, Section 1(a)(49), to accommodate the listing of options series that expire on Tuesdays and Thursdays.⁵ Specifically, the Exchange added Tuesday and Thursday to the permitted expiration days, which currently include Monday, Wednesday, and Friday, that it may open for trading.

At this time, the Exchange proposes to amend the term “Short Term Option Series” at Options 1, Section 1(a)(57) to provide,

The term “Short Term Option Series” means a series in an option class that is approved for listing and trading on the Exchange in which the series is opened for trading on any Monday, Tuesday, Wednesday, Thursday or Friday that is a business day and that expires on the Monday, Tuesday, Wednesday, Thursday, or Friday of the next business week, or, in the case of a series that is listed on a Friday and expires on a Monday, is listed one business week and one business day prior to that expiration. If a Tuesday, Wednesday, Thursday or Friday is not a business day, the series may be opened (or shall expire) on the first business day immediately prior to that Tuesday, Wednesday, Thursday or Friday, respectively. For a series listed pursuant to this section for Monday expiration, if a Monday is not a business day, the series shall expire on the first business day immediately following that Monday.

Today, NOM’s listing rules permit the listing and trading of options series with Tuesday and Thursday expirations for options on SPY and QQQ listed pursuant to the Short Term Option Series Program.⁶

Options 4A, Section 12

In 2014, NOM amended the Short Term Option Series Program for equity options within Chapter IV, Section 6 (currently Options 4, Section 5) to change the number of currently listed option classes on which Short Term Option Series may be opened on any Short Term Option Opening Date from thirty to fifty options classes.⁷ Further, NOM also amended the number of

⁵ See note 3 above.

⁶ NOM’s Options 4 Rules are incorporated by reference to ISE’s Options 4 Rules and therefore the approval of ISE’s Options 4 rules permit the listing and trading of options series with Tuesday and Thursday expirations for options on SPY and QQQ on NOM.

⁷ See Securities Exchange Act Release Nos. 72699 (July 29, 2014), 79 FR 45506 (August 5, 2014) (SR-NASDAQ-2014-074) (Notice of Filing and Immediate Effectiveness of

Short Term Option Series that the Exchange may open for each expiration date in that class from twenty to thirty.⁸ At that time, the Exchange neglected to update the index options rules to make similar changes to the Short Term Option Series Program given that the amount of options classes that may participate in the Short Term Option Series Program is aggregated between equity options and index options and is not apportioned between equity and index options.

Today, Options 4A, Section 12(h)(1)(A) provides,

The Exchange may select up to thirty (30) currently listed option classes on which Short Term Option Series may be opened on any Short Term Option Opening Date. In addition to the 30 option class restriction, the Exchange may also list Short Term Option Series on any option classes that are selected by other securities exchanges that employ a similar program under their respective rules. For each index option class eligible for participation in the Short Term Option Series Program, the Exchange may open up to 30 Short Term Option Series on index options for each expiration date in that class. The Exchange may also open Short Term Option Series that are opened by other securities exchanges in option classes selected by such exchanges under their respective short term option rules.

At this time, the Exchange proposes to amend Options 4A, Section 12(h)(1)(A) to increase the number of currently listed options classes on which Short Term Option Series may be opened on any Short Term Option Opening Date from thirty to fifty options classes for index options.

Additionally, the Exchange proposes to amend the number of Short Term Option Series the Exchange may open on index options for each expiration date in that class from twenty to thirty.

These amendments would align the limitations within Options 4A, Section 12(h)(1)(A) with those currently within Supplementary .03 to Options 4, Section 5. The Exchange also proposes to add certain titles before Options 4A, Section 12(h)(1)(A) – (E) to indicate the subject matter of the paragraphs. Those non-substantive amendments are intended to bring clarity to the rule text.

As noted above, this amendment will not result in a greater number of listings in the Short Term Option Series Program because the amount of options classes that may participate in the Short Term Option Series Program is aggregated between equity options and index options

and is not apportioned between equity and index options. Amending Options 4A, Section 12(h)(1)(A) to conform to the limitations provided within Supplementary .03 to Options 4, Section 5 will avoid confusion by making clear the aggregate limitations within equity and index options for listing Short Term Option Series. Today, ISE, Nasdaq Phlx LLC (“Phlx”) and Cboe Exchange, Inc. (“Cboe”) have similar limitations within their equity and index Short Term Option Series Program.⁹

Other Non-Substantive Amendments

The Exchange proposes to make other amendments to reserve certain sections of the Rulebook. These sections contain content in other Nasdaq affiliated rulebooks. To harmonize the section numbers across the Nasdaq affiliated markets, the Exchange proposes to reserve General 2, Sections 23 and 24 as well as Options 10, Sections 26 and 27. These amendments are non-substantive.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹¹ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest.

Options 4A, Section 12

In 2014, NOM amended the Short Term Option Series Program for equity options within Chapter IV, Section 6 (currently Options 4, Section 5) to change the number of currently listed option classes on which Short Term Option Series may be opened on any Short Term Option Opening Date from thirty to fifty options classes.¹³ Further, NOM also amended the number of Short Term Option Series that the Exchange may open for each expiration date in that class from twenty to thirty.¹⁴ At that time, the Exchange neglected to update the index options rules to make similar changes to the Short Term Option Series Program given that the amount of options classes that may participate in the Short Term Option Series Program is aggregated between equity options and index options and is not apportioned between equity and index options. and is not apportioned between equity and index options. Today, ISE, Phlx and Cboe have similar limitations within their equity and index Short Term Option Series Program.¹⁵

Other Non-Substantive Amendments

The Exchange's proposal to make other amendments to reserve certain sections of the Rulebook, namely General 2, Sections 23 and 24 as well as Options 10, Sections 26 and 27, to harmonize section numbers across the Nasdaq affiliated markets are non-substantive.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

Short Term Option Series

The Exchange's proposal to amend the term "Short Term Option Series" at Options 1, Section 1(a)(57) to reflect the recent change¹⁶ to NOM's listing rules to permit the listing and trading of options series with Tuesday and Thursday expirations for options on SPY and QQQ listed pursuant to the Short Term Option Series Program does not impose an undue burden on competition, rather this proposal will align the description of Short Term Option Series within Options 1, Section 1(a)(57) to the expirations permitted within the Short Term Option Series Program within Supplementary .03 to Options 4, Section 5.

Options 4A, Section 12

Amending Options 4A, Section 12(h)(1)(A) to conform to the limitations provided within Supplementary .03 to Options 4, Section 5 will avoid confusion by making clear the aggregate limitations within equity and index options for listing Short Term Option Series. Also, aligning the limitations within Options 4A, Section 12(h)(1)(A) with those currently within Supplementary .03 to Options 4, Section 5 will not result in a greater number of listings in the Short Term Option Series Program because the amount of options classes that may participate in

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act¹⁸ and Rule 19b-4(f)(6) thereunder.¹⁹ Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act²⁰ and subparagraph (f)(6) of Rule 19b-4 thereunder.²¹ The Exchange has stated that the Options 4 listing rules were recently amended to expand the Short Term Option Series program to permit the listing and trading of options series with Tuesday and Thursday expirations for options on SPY and QQQ listed pursuant to the Short

The Exchange has satisfied this requirement.

Term Option Series Program,²² and that waiver of the 30-day operative delay will allow the Exchange to conform the definition of a Short Term Option Series to the Options 4 listing rules. The Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest because the proposed rule change does not raise any new or novel issues. Accordingly, the Commission hereby waives the operative delay and designates the proposed rule change operative upon filing.²³

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
